A cross-sectional view of a multi-layered device assembly 310. The assembly includes a top layer 112 with a central opening 118. This opening is flanked by two cross-hatched regions 114. Below the top layer is a middle section 120 containing a central cross-hatched block 350. This block is surrounded by a series of concentric, rounded rectangular layers 360. Below the middle section is a bottom section 122. This section contains a central vertical channel 228. The channel is lined with a material 226. At the bottom of the channel is a component 230, which is flanked by two small rectangular blocks 232. The entire assembly is supported by a base 231. A label 310 is positioned to the right of the assembly.
